Community Outreach Program

Objective

The RST Outreach Program aims to provide education, values formation and basic social services to any of our less fortunate brothers and sisters who might not otherwise have access to these services and assistance.

At the same time, the outreach program gives RST students the opportunity to get involved in community service on a regular basis. Projects are student-led and are supported by existing funding sources.

Moreover, for RST students, involvement in these programs is an amazing opportunity to impact those whom they will come to serve and at the same time develop in them love for the poor. From offering early childhood education and values formation to involving older adults in life-long learning will bring together faculty, students and research-based support to strengthen children, the youth, families and individuals in the community.

Making a difference in people's lives means active involvement in the larger community. RST is committed to making that difference through our community-based outreach program.

Action Plan

The plan describes what activities are required during a specified time period, what resources are needed to achieve the objectives.

Values Formation and Education

- ◇ To address community needs and expectations that are focused on education, values formation and basic social services.
- ◇ To mold the youth to become responsible members of the society.
To increase awareness of the importance of moral, spiritual and

social values.

- ◇ To enhance the connectedness of community members.
- ◇ To provide items needed for values formation and education.
- ◇ Enhance concern for Mother Earth.
- ◇ Skills Development
- ◇ Work with collaborating agency partners to coordinate efforts and resources to meet the needs of the adopted communities.
- ◇ A majority of these will be conducted through instructions, classes, group discussions and activities, seminars and the like.

Medical Assistance

The health of an individual affects all areas of his/her life and extends to the family, community, society and the nation. Part of the program is to offer medical services through missions to bring healing and changing lives in adopted communities. A team of health care professionals and doctors will be invited to share their time and skills to provide medical care.

Basic Social Services

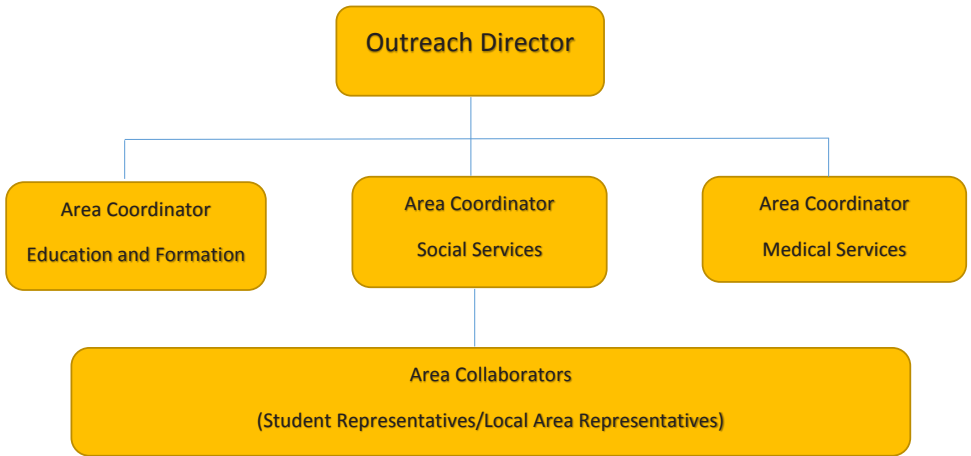

- ◇ Skills Development
- ◇ Cooking
- ◇ Tailoring
- ◇ Sports Development
- ◇ BEC: Community Development

Support Group/Linkage: San Sebastian College Extension Office

Sustainability

For a long-term viability and sustainability, the RST will establish strategic partnership with ARCORES and Greenheart who have similar mission and programs with us.
